WORK EXPERIENCE

HOLM DEVELOPMENTS, Dubai Interior Designer, 07/2025 – Present

- Coordinate the design development and delivery of four residential real-estate projects from concept through tender and construction, managing interior drawings, documentation, schedules and design packages.
- Coordinate with Architecture, MEP, Structural, Site teams and consultants to resolve design and technical issues while maintaining the approved design intent.
- Manage the selection, review and approval of finishes, fixtures, furniture and materials, including supplier coordination, samples, specifications and technical evaluations.
- Contribute to value-engineering exercises, material alternatives and cost-conscious design decisions while maintaining project quality and design intent.
- Manage project documentation, material schedules and approval trackers, while providing architectural visuals and design information for Marketing presentations.

AK DESIGNO, Dubai Interior Architect & Concept Designer, 08/2024 – 03/2025

- Developed concepts, layouts, mood boards and visualizations for residential, commercial and mixed-use projects.
- Prepared detailed interior and shop drawings in accordance with project requirements and site fit-out regulations.
- Participated in client meetings and site coordination, supporting projects from concept development through execution.

Construction Documentation

EXS DESIGN, Dubai

Project Architect, 08/2022 – 07/2024

- Led the design development of residential, commercial and public projects, overseeing concepts, architectural drawings, material boards, specifications and detailed documentation.
- Coordinated with clients, engineers, contractors and interior designers, managing design feedback, technical coordination and project documentation.
- Conducted site surveys and reviews, tracked project progress, and reviewed material samples and shop drawings to maintain alignment with design intent.
- Contributed to the development of the company's design handbook, standards and project workflows to improve consistency across projects.

KLIMART ARCHITECTS, India

Junior Architect, 11/2020 – 07/2022

- Produced architectural and tender documentation including plans, elevations, RCPs, electrical/power layouts and floor-finish drawings, along with 3D models and visualizations.
- Coordinated Architectural, Structural and MEP drawings, vendors, contractors and site execution; reviewed material samples and shop drawings.
- Supported projects through design and construction stages and conducted architectural research, including temple architecture research for a book publication.

ATELIER ADISH PATNI, India

Intern Architect, 07/2019 – 12/2019

- Assisted with concept, schematic and tender drawings, client presentations and architectural documentation using AutoCAD and SketchUp.
- Supported site surveys and research into materials, construction techniques and building requirements during project development.

EDUCATION

Bachelor of Architecture

The Oxford School of Architecture, Bangalore, India

08/2015 – 09/2020
